

Faculty of Engineering Department of Biomedical Engineering

07 Pressure

Instructor: Dr. Mehmet Yüksekkaya

BME 312

Biomedical Instrumentation II

Pressure

• What is Pressure?

• Pressure is force per unit area.

Fluid Pressures

• Hydrostatic

Torricelli Barometer for measuring atmospheric pressure

For Torricelli's experiment

Pressure measurements methods

- Absolute pressure measurement
- Gauge pressure measurement
- Differential pressures measurement

Sensing Element: Diaphragm Type

Transducer Types for Sensing Displacement

- Piezoelectric
- Capacitive
- Inductive
- Resistive
