

VACCINE FAILURE & SIDE EFFECTS

- Discussion of subjects related to vaccine failure and side effects of vaccines with students
- When, why and how do the vaccines fail?
- What should be done to prevent vaccine failure?
- How should the vaccines produced, stored and transported to field?
- What are the roles of animals in vaccine failure
- What are the side-effects of vaccines?
- What types of side-effects can be seen after vaccinations? How can we classify the vaccine side effects?
- What are the outcomes of these side effects? Do adjuvants have any side effects?
