HOW TO TURN ON/OFF THE QARDIOARM

The QardioArm has a small magnet inside the cuff.

The device turns itself on when you unwrap the cuff and it turns off when you wrap the cuff back up.

.....

.....

When left unwrapped, QardioArm will turn itself off after a few minutes automatically to preserve battery life.

.....

.....

To check if your device is switching on, look for the short blink of a green light on the side of the device when opening the cuff.

.....

.....

Always store the QardioArm with the cuff wrapped around the device.
