

FISHING METHODS

Prof. Dr. Hasan Hüseyin ATAR

Fishing related concepts

- **What Are You Fishing For?**

- In the face of the nutritional problem, which is increasingly becoming more and more important day by day, the main assurance of mankind is to make better use of the products of the seas, as the limited occurrence of the beings and the inability to further increase their productivity.

17.05.2018

- Fishing is one of the oldest professions in the world. The fish catching, too, extends back to ancient times, even to the history of mankind.
- Commercial fishermen — those fishing to gather fish or shellfish for food — often use devices like nets, traps, or long lines with multiple hooks to take fish.

Fishing is the removal of any aquatic product from the environment in which it has been killed in any way.
