Dersin Kodu ve İsmi	VME411 - NECROPSY
Dersin Sorumlusu	Prof. Dr. Rifki HAZIROĞLU, Prof. Dr. Sevil ATALAY VURAL, Araş.Gör.Dr. Gözde YÜCEL TENKEKİ, Araş.Gör.Dr. Arda Selin TUNÇ
Dersin Düzeyi	Lisans
Dersin Kredisi	2
Dersin Türü	Zorunlu
Dersin İçeriği	Postmortal examination, Aim of necropsy, General rules in necropsy, Nekropsy time,Determination of necropsy place, Disposal of cadaver, Necessary precautions in necropsy,Tools and equipments in necropsy, Euthanasia,Dead and dead findings,Dead, Dead findings,Algor mortis,Rigor mortis,Postmortal coagulatio sanguis, Postmortal hipostatic congestion, Imbibition,Palor mortis, Postmortal,Autolysis, Putrefaction, Postmortal findings in some organs, Factors in Selecting Necropsy Method I. Necropsy position, II. Skinning and separation of the skin of the extremities, III. Opening of cavities of body IV. Removal the neck organs, V. Removal of brain and other spaces, Necropsy Methods in Ruminants, Necropsy Methods in Equidae, Necropsy Methods in Dogs and Cats, Rokitansky Method, Necropsy Method in Pigs, Modified method, opening thoracal and abdominal cavities and removal of organs, Degenerations and Metabolism Disorders : Degenerations(Acute cell swelling, Albumine degeneration, Paranchymal degeneration, Vacuolar and hydropic degeneration, Hyalin degeneration, Amyloid accumulation,Mucoid degeneration,Fibrinoid degeneration), Necropsy Method in Poultryes, Euthanasia methods, Necropsy methods in laboratory and some wild animals, Tools and equipments,Necropsy Method,Taking sterile samples for culture,Necropsy method in some wild animals, Cosmetique Necropsy, Fish Necropsy, Examining the general principles applied to cadaver: Out look,Overview,Special view,Internal Look,Diagnostic Methods Within the scope of qualitative and quantitative morphological criteria of lesions, Morphological lesions (formal) to determine the pathogenesis,Differentiation death cause and postmortal changes belonging to main disease with secondary morphological changes from morphological changes of physiological changes,Morphological diagnosis,Pathogenesis and etiologic diagnosis.
Dersin Amacı	Training of veterinarians according to gain qualifications to be able to make a diagnose of disease by means of morphological findings.
Dersin Süresi	1T+2U/Haftalık
Eğitim Dili	İngilizce
Ön Koşul	-
Önerilen Kaynaklar	1. Color Atlas of Small Animal Necropsy, R. E. Moreland, Remsoft Publisher, 2009. 2. Kısa Nekropsi Teknikleri ve Bazı Hastalıkların Teşhisi İçin Alınacak Marazi Maddeler ve Muhafaza Şekilleri, H. K. Urman, Ü. Bas., Ankara, 1966. 3. Nekropsi (Yöntem), Ş. Berkin, G. Alçıgır, Medisan Basımevi, Ankara, 1999. 4. Veteriner Patoloji'de Makroskobik Teşhis, Tek Tırnaklı Hayvanlarda Otopsi Teknikleri ve Makroskobik Teşhis. Pamukçu M., Fasıklül I,Güven Matbaası, Ankara, 1962. 5. Videos (Our necropsies videos and Online videos)
