

The slide features a decorative left margin with a vertical gradient bar in shades of green and several overlapping circles of varying sizes in a dark green color. The main content is centered on the right side of the slide.

AQUATIC PLANTS 6

Prof. Dr. Nilsun DEMİR

BIOLOGICAL FACTORS

Competition

Herbivores and pathogens

Grass carp

TURION

- Morphological variations are found among temperate aquatic macrophytes that overwinter by the formation of winter buds (turions).

TREATMENT

- Biological treatment
- Chemical treatment
- Mechanical treatment
