

## Assignment

Choose any scene from any movie that you wish as long as its original language is English. Then, write an essay of 1000-1500 words analyzing the scene. Keep in mind that you shouldn't choose any of the clips that we have already discussed in the class or that we will discuss in the future. Your essay should have coherency and proper structure (title, introduction, main body and conclusions). You shouldn't waste too many words describing what is happening in the scene. Suppose that the reader has already watched the film, so focus on analyzing instead of describing.

- ✓ In case you use any information from other sources (web, newspapers, books etc.) you should clearly state it. Any copy-paste or plagiarism (paraphrasing/summarizing information from another source without stating it) is strictly forbidden.
