

**BME101 Introduction to Biomedical Engineering**

# **Student Project Presentations**

**Ankara University**  
**Department of Biomedical Engineering**

# Term Paper Topics

No	Topic	No	Topic
1	- omics technologies	9	Enzymes
2	3D printing	10	High-frequency chest wall compression (HFCWC)
3	Antioxidants in biomedical engineering	11	Human genome project
4	Carbon nanotubes in biomedical applications	12	Induced pluripotent stem cells
5	Chronic obstructive pulmonary disease (COPD)	13	Magnetic resonance imaging (MRI)
6	Crispr genome editing technology	14	Nonsteroidal anti-inflammatory drugs (NSAIDS)
7	Electrocardiogram (ECG)	15	Postural drainage (PD)
8	Electroencephalogram (EEG)	16	Tissue engineering
		17	Total hip replacement
