

# VETERINARY MEDICINE AND PROFESSIONS

## PROFESSION

A profession requires a degree or completed studies at a university or other institution of higher education. It involves extensive training and special knowledge.

*Examples of professions include accountant, architect, doctor, engineer, lawyer, teacher. You need a degree to work in these areas.*

## OCCUPATION

An occupation is the job you are paid to do. It is the way you earn a living. Think of it as the activity that occupies your time and from which you receive money for doing it.

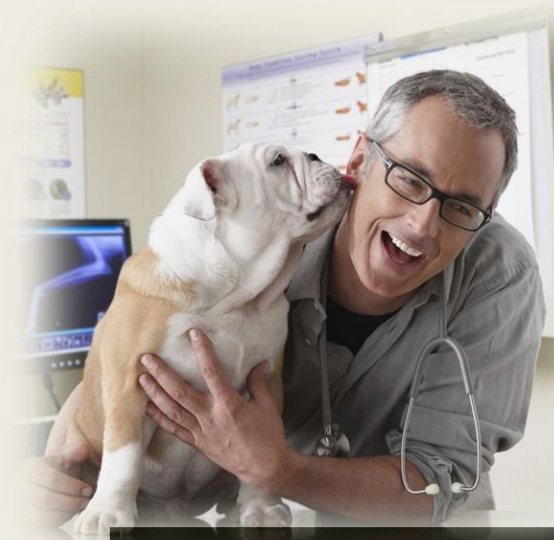

## COMPARE

I studied teaching at university and I am a **teacher** right now. My profession and my occupation are the same.

I studied teaching at university but I am an **actor** right now. My profession is teacher though my occupation (or my job right now) is actor.

**KEEP  
CALM  
and  
STUDY  
VET MED**
