The Scientific and Technological Research Council of Turkey (TÜBİTAK) is the leading agency for management, funding and conduct of research in Turkey. It was established in 1963 with a mission to advance science and technology, conduct research and support Turkish researchers. The Council is an autonomous institution and is governed by a Scientific Board whose members are selected from prominent scholars from universities, industry and research institutions.

TÜBİTAK is responsible for promoting, developing, organizing, conducting and coordinating research and development in line with national targets and priorities.

TÜBİTAK acts as an advisory agency to the Turkish Government on science and research issues, and is the secretariat of the Supreme Council for Science and Technology (SCST), the highest S&T policy making body in Turkey.

Setting its vision as to be an innovative, guiding, participating and cooperating institution in the fields of science and technology, which serves for improvement of the life standards of our society and sustainable development of our country, TÜBİTAK not only supports innovation, academic and industrial R&D studies but also in line with national priorities develops scientific and technological policies and manages R&D institutes, carrying on research, technology and development studies. Furthermore, TÜBİTAK funds research projects carried out in universities and other public and private organizations, conducts research on strategic areas, develops support programs for public and private sectors, publishes scientific journals, popular science magazines and books, organizes science and society activities and supports undergraduate and graduate students through scholarships.

More than 1,500 researchers work in 15 different research institutes of TÜBİTAK where contract research as well as targeted and nation-wide research is conducted.

**International Cooperation Department** is responsible for the management of TÜBİTAK's international programmes.

These programmes are divided into three general categories.

- Bilateral Cooperation
- Cooperation with the Regional and International Organizations
- Cooperation with the European Union (EU)

Activities of the Bilateral Cooperation and Cooperation with the Regional and International Organizations are carried out by the Bilateral and Multilateral Relations Division which is connected to the International Cooperation Department.

International Cooperation Department is composed of two directorates:

- Bilateral and Multilateral Relations Division
- EU Framework Programmes National Coordination Office

## **EU FRAMEWORK PROGRAMMES NATIONAL COORDINATION OFFICE**

Since 1984, research and innovation activities of the EU are grouped in one big programme called the Framework Programme (FP). Research Framework Programmes are the EU's main financial and legal instruments to implement the European Research Area (ERA)

The Seventh Framework Programme (FP7) is the current (2007-2013) Framework Programme for Research and Technological Development set up by the European Union (EU) in order to fund and promote European research and technological development. FP7 is a key tool to respond to Europe's needs in terms of jobs and competitiveness, and to maintain leadership in the global knowledge economy.

The Scientific and Technological Council of Turkey (TÜBİTAK) has been assigned officially by the Turkish government as the contact organisation for the EU Framework Programmes at the beginning of 2003. The implementation of the national coordination role concerning the EU Framework Programmes is achieved by TÜBİTAK EU Framework Programmes National Coordination Office (NCO). The continuous progress of the administrative structure of the NCO is thought to be effective in increasing the success of Turkey in Framework Programmes.

## Multilateral Cooperation

Our country is actively participating in the activities of a variety of European research programmes such as COST (European Cooperation in the field of Scientific and Technical Research), ESA (European Space Agency), EMBC (European Molecular Biology Conference); regional organizations such as Black Sea Economic Cooperation and Economic Cooperation Organization and international organizations like NATO, OECD and UNESCO. Participation of Turkish scientists to the events organized by these organizations are supported or monitored by TÜBİTAK.

Please click [here](#) to see detailed information about multilateral programs (In Turkish).

There are bilateral cooperation agreements with a variety of countries at the intergovernmental or inter-institutional levels. Within the framework of such agreements, common research projects are supported and monitored; financial support is provided for several different types of activities such as common scientific meetings, exchange of scientists, scientific visits, etc.

TÜBİTAK has 27 bilateral cooperation programs with the institutions from 22 different countries: USA (NSF, [NIH](#)), Bulgaria (BAS), Belarus (NASB), India (CSIR), Germany (DFG, BMBF), Slovakia (SAS), Greece (GSRT), Mongolia (MAS), Italy (CNR, Ministry of Foreign Affairs), France (CNRS, Bosphorus Program with Ministry of Foreign Affairs), Slovenia (ARRS), Ukraine (NASU, DKNII), Hungary (NKTH), Korea (NRF), Romania (ANCS), Pakistan (MoST), Russia (RFBR), China (MOST), Czech Republic (AS CR), Belgium (FWO)

Please click [here](#) to see the list of open calls (In Turkish).

## **Fellowship Description:**

The Scientific and Technological Research Council of Turkey (TÜBİTAK) grants fellowships for international scientists/researchers who would like to give workshops/conferences/lectures, or conduct R&D activities in Turkey in the fields of Natural Sciences, Engineering and Technological Sciences, Medical Sciences, Agricultural Sciences, Social Sciences and Humanities. The program aims to promote Turkey's scientific and technological collaboration with countries of the prospective fellows.

Three types of visit are granted within this program:

### **Visiting Scientists/researchers on Short-term (up to 1 month):**

Short-term fellowships fund is available for the following activities in Turkey:

- Conducting workshops/conferences/seminars etc.
- Giving tutorials/lectures etc.
- Participating in R&D activities
- Organizing technical meetings for scientific and technological collaboration

### **Visiting Scientists/researchers on Long term (up to 12 months):**

Long-term fellowships fund is available for the following activities in Turkey:

## **Visiting Scientists/researchers on Long term (up to 12 months):**

Long-term fellowships fund is available for the following activities in Turkey:

- Conducting research and development (R&D)
- Teaching graduate/undergraduate courses etc.

## **Scientists/researchers on SABBATICAL LEAVE (from 3 months to 12 months):**

Scholars or academic staff on SABBATICAL LEAVE planning to come to any Turkish university/institution is also funded for the following activities in Turkey:

- Conducting research and development (R&D)
- Teaching graduate/undergraduate courses etc.

## **Requirements for Beneficiaries:**

- Fellows can be citizen of any country.
- Fellows should have a PhD degree (or equivalent) or have at least five years of research experience
- Fellows should be invited by a hosting institution in TURKEY, which can be universities, research institutions, or industrial companies with a R&D unit.
- Fellows on Sabbatical leave should be invited for duration of at least 3 months.

## **Fellowship Details:**

- A monthly stipend of up to 3.000 US\$ for Visiting Scientists\*.
- A monthly stipend of up to 3.500 US\$ for Visiting Scientists on Sabbatical Leave\*
- Travel costs (round trip) and health insurance premiums.
- Duration of the fellowship varies from one week to 12 months
- Fellows must use their fellowships within six months of having been notified of the fellowship.

\* The amount of the monthly stipend will be determined based on the academic titles of fellows.

## **How to Apply:**

**Applications should be submitted by host scientist/institution.**

All applications must be submitted electronically via TÜBİTAK application portal, which can be reached at <http://e-bideb.tubitak.gov.tr/>. All required documents must also be uploaded electronically.

## **Application Deadlines:**

## **Applications should be submitted by host scientist/institution.**

All applications must be submitted electronically via TÜBİTAK application portal, which can be reached at <http://e-bideb.tubitak.gov.tr/>. All required documents must also be uploaded electronically.

## **Application Deadlines:**

Applications are accepted on a rolling basis.

A<sup>+</sup> A<sup>-</sup>

#### PURPOSE OF THE PROGRAM

The purpose of this program is to support research in Turkey for generating new information,

# 1001 - Scientific and Technological Research Projects Funding Program

## **PURPOSE OF THE PROGRAM**

The purpose of this program is to support research in Turkey for generating new information, interpreting scientific findings, or solving technological problems on a scientific basis.

## **PROJECT PERSONNEL REQUIREMENTS**

### **A. Project Manager, Researchers and Advisors:**

- University personnel should have a PhD degree.
- Those working in a public institution or a private corporation should have an undergraduate degree.
- Except advisors, the project manager and researchers should reside and work in Turkey.
- A researcher should have a contribution of at least 10% of the project workload.
- An advisor is allowed if the project requires special expertise on a specific subject. The number of advisors in a project is limited to the number of specific subjects in the project. The role of advisor in the project should be explained in detail in the project proposal.

## **B. Scholarships:**

- Scholarships can be given to graduate students of universities and institutions in Turkey. Individuals with a PhD degree and who do not have any other source of income can get a postgraduate scholarship. To get a postgraduate scholarship, the applicant should not be older than 40 years and have got his/her PhD degree in the last five years.
- TÜBİTAK BİDEB funded students can be scholarship students in one 1001 project as long as they do not receive any stipends from the project fund. It is not possible to be a scholarship student simultaneously in two different projects from any program funded by TÜBİTAK.

## **WHO CANNOT BE A PROJECT MANAGER**

University rectors and vice rectors, deans, head of academy/institute, surgeons general, general secretaries, general managers, state department heads and members of the executive committee/advisory board of TÜBİTAK groups cannot be the project manager in any project if they are working in those positions as of the application date. However, they can be researchers in at most two projects.

## **PROJECT DURATION**

At most 36 months.

## **PROJECT BUDGET (As of 2012)**

- The annual budget limit for research projects is 120,000 TL (scholarship payments are included, payments to the project manager, researchers and institution are excluded).

## **APPLICATION DEADLINES**

Twice a year (in the first week of march and september each year)

## **HOW TO APPLY**

Project applications are to be submitted electronically via <http://ardeb-pbs.tubitak.gov.tr>.

R&D Funding  
Program**

**1002 - Short Term R&D Funding Program**

# 1002 - Short Term R&D Funding Program

## General Information about the Program

- **The Purpose of the Program,**

- The purpose of this program is to support short-term R&D projects with small budgets and immediate start requirements. Proposals are accepted from members of universities, research hospitals, and research institutes.

- **Project Duration**

- The maximum project duration is 12 months for each project proposed under the program.

- **Project Budget**

- The maximum grant amount is 30.000 Turkish Liras regardless of the project duration.

- **Scholarship**

- Upper limit is 900 TL/per month

### **Application Process**

- There is no deadline for the applications under the program.
- Project applications can be electronically submitted by the following link: <http://ardeb-pbs.tubitak.gov.tr>
- Please follow the link below for the program forms and documents which will be used during the application process: <http://tubitak.gov.tr/tr/destekler/akademik/ulusal-destek-programlari/1002/icerik-basvuru-formlari>

### **Monitoring Process**

**3501**

**National Young Researchers  
Career Development  
Program (CAREER)**

## 3501 - Career Development Program (CAREER)

### **PURPOSE OF THE PROGRAM**

The purpose of this program is to encourage scientists with PhD degrees and who are at the beginning of their scientific careers by supplying project funds for their studies. The other goals of the program are helping young scientists, who are going to be the academic leaders of the 21st century, maintain their careers as researchers and lecturers in the best possible way, improving the national scientific level and increasing the role of science in national development.

- \* Advisers who are not residing in Turkey are not required to be registered with ARBİS.
- \*\* (1002) Short-Term R&D projects and international projects are excluded from the limit requirements.
- \*\*\* The projects for which final reports are not approved and submitted proposals are included in the limits.
- \*\*\*\* It should be signed by majority of the members of the committee of ethics.

# 1005 - National New Ideas and Products R&D Funding Program

## General Information about the Program

- **The Purpose of the Program,**

- In this program, frequently imported devices and materials are intended to be developed nationally, without violating the patent rules. Thus, the new ones will be produced. Within the context of the program, the projects, which aim to create new features and new products by making additions to frequently used technological products, will be granted.

- **Project Duration**

- The maximum project duration is 18 months for each project proposed under the program.

- **Project Budget**

- The maximum grant amount is 200.000 Turkish Liras (except for project promotion bonus for researchers and public and private institution allocation (ten percent of the total project budget) regardless of the project duration.

- **Scholarship**

- Undergraduate Student: 500 TL/per month
- Master's Student: 1.500 TL/per month
- PHD Student: 1.800 TL/per month
- Post Doctorate: 2.500 TL/per month

- **Travel Expenses**

- Upper limit for the expenses which cover to attend to a national or international scientific meeting or field work in a project budget is 10.000 TL.

- **Dissemination Expenses**

- Upper limit for the expenses which cover to disseminate the results of a project in a budget is 10.000 TL.

- **Project Promotion Bonus for Researchers**

- There is a conditional Project Promotion Bonus under the program: See the details from the following link (in Turkish): [http://tubitak.gov.tr/sites/default/files/1005\\_pti\\_kosullari.pdf](http://tubitak.gov.tr/sites/default/files/1005_pti_kosullari.pdf)

## Farabi Programme

The Exchange Program for Student and Faculty Members among the Higher Education Institutions, which is shortly called as Farabi Exchange Program, is the exchange program for students and faculty members between higher education institutions that offer education in undergraduate and graduate levels within universities and high technology institutes.

The Farabi Exchange Program aims to enable students or faculty members to continue their education and training activities in a different higher education institution for one or two semesters.

For more detailed info; <http://www.pau.edu.tr/farabi/en>

## GENERAL INFORMATION

---

### What is Mevlana Exchange Programme?

Mevlana Exchange Programme is a programme which aims the exchange of students and academic staff between the Turkish higher education institutions and higher education institutions of other countries. With the regulation published in August 23, 2011 (num: 28034), students and academic staff exchange between Turkish higher education institutions and higher education institutions of other countries has been possible. Different from other exchange programmes, Mevlana Exchange Programme includes all higher education institutions in the world regardless of their region.

### Who can benefit from Mevlana Exchange Programme?

### Application Requirements of Mevlana Exchange Programme

### How should a student, who has the requirements, can apply to the Mevlana Exchange Programme?

### How many times and how long can we participate in Mevlana Exchange Programme?

### Do students have to pay any tuition fee when they participate in Mevlana Exchange Programme?

### Do the students who participate in the programme repeat the courses/semesters taken at the host institution?

### Scholarships During the Mevlana Exchange Programme: Terms and conditions for students.

If you want to have a MSc, PhD degree from an university, you have to apply to graduate schools of any university. An example website is shown above.

For starting to your higher education, you have to check the application conditions via websites. At least you have to get a language score from one of the exam IELTS, TOFEL, YDS. At the same time you will also need an ALES score.

For a job such as being an asistant, you need KPSS score as well. This means that you should have abiliities on a foreign language, computer softwares after passing necessary exams.
