

FISHING WITHOUT GEARS

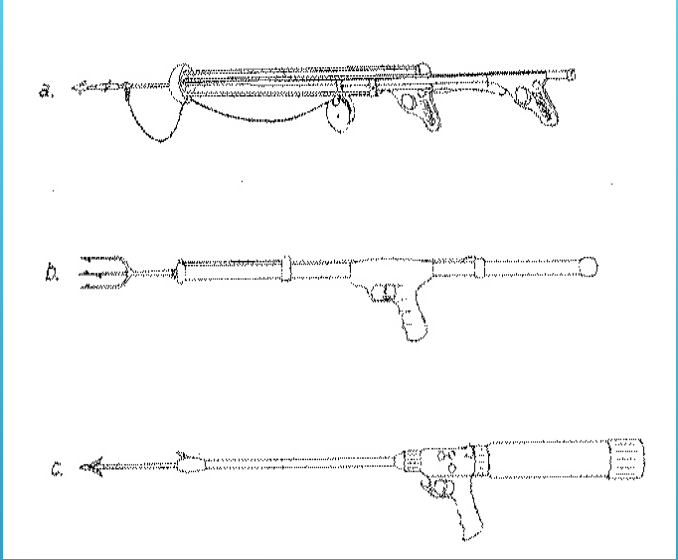

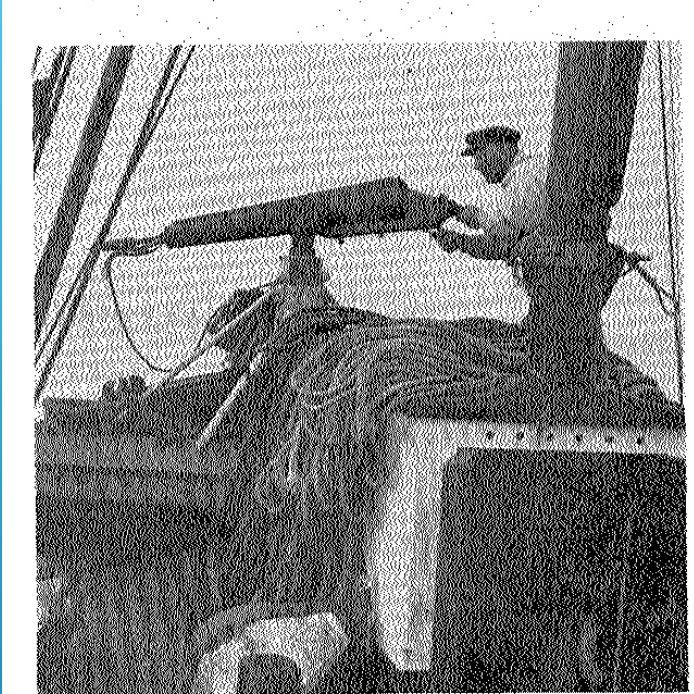

Prof. Dr. Hasan Hüseyin ATAR

- ▶ In order to gain access to the fish that is farther than the fishermen's arms can reach, tools have been developed that prevent it from hurting the catch.
- ▶ They are fishing by means of pushing, throwing or shooting.
 - Fishing with harpoon
 - Fishing with a rifle, gun

ANESTHESIZED, STUNNED, POISONED FISHING

- ▶ In this method, the fish is stunned and stunned so that it can not escape. In other words, stunning, stunning and poisoning methods are used to prevent moving fish from escaping.
- ▶ It can be divided in to two; Chemical and mechanical.
